

## Coordinator List

*valuable information to share with campers and their caregivers before they attend  
Camp Bob*

**Transportation:** Sponsoring organizations arrange the drop off and pick up location and times for campers in their area as well as coordinate with the Director. In addition, they arrange for vans or charter buses to transport the campers to and from their community. If you need transportation assistance please let us know as soon as possible.

**Safety:** Safety is our utmost priority at all times. Our counselor team is well trained in all activity areas and in camper health and hygiene. Our counselors are carefully supervised to ensure they are providing adequate care for each camper. Each counselor is First Aid and CPR certified.

**Health care:** A certified, registered nurse is in residence and available 24 hours a day. On the first day of camp, our nurse completes a general health screening and orientation for all campers. If a camper is uninsured, he or she is covered under Kanuga's insurance policy during their stay.

**Medical information:** All campers are required to have a current and completed Registration/Health Form when they arrive at camp. Medications must be sent in their original container with the child's name and dosage information on it. Please give these to the sponsoring organization before your child leaves for camp.

**Emergency contact:** In case of emergency, parents should call the Kanuga operator at our 24-hour number, 828-692-9136, and tell the receptionist that their child is attending Camp Bob. Leave their name, the camper's name and a phone number where we can reach them. We will return their call as soon as possible.

**Phone calls:** Use of the telephone by campers is not allowed. Please do not tell campers that they will be able to call home from camp. Special arrangements will be made in the case of emergencies at the director's discretion.

**Homesickness:** Almost all campers experience some feelings of missing home. Our counselors work hard at keeping campers busy with fun activities to avoid homesickness and are trained specifically during staff development.

**Expected camp behavior:** Campers are expected to follow camp rules and standards of behavior. Inappropriate behavior, including but not limited to hitting, biting, inappropriate language, bullying or creating an unsafe environment, may result in appropriate discipline or dismissal from camp. All campers as well as staff are expected to be respectful and kind to others.

**Camp is a community:** If you have returning campers or if they are attending camp with friends from home, it is important to know that they will have lots of time with their friends at campus-wide activities and potentially during Camper Choice activities, and we cannot promise that they will be together in a cabin. Making new friends as well as keeping in touch with old ones is important for the sense of community at camp.
