

CAMP KANUGA

ALASKA EXPEDITION PACKING INFORMATION (PAGE 1-3)

Having the right gear can make or break a trip. Alaska's weather changes daily and often. There can be high temps with long days of sunshine followed by cold fronts with snow and rain. You must have the right gear. Please follow this list carefully. We suggest that campers purchase gear at Recreational Equipment Inc. (REI). Any broken or incorrectly sized may be returned to the REI in Anchorage.

How to pack for Arrival Day

Carry-On Bag/Day Backpack (25-35 liter): This is a small backpack like a school bag. This bag needs to secure your:

- Photo ID or Passport
- Access to funds: cash or debit card
- Cell Phone and charger, medications, wallet, and return ticket information.
- Rain jacket, water bottle (empty), and change of clothes. You may want to change once in Anchorage!

Important Things to Consider:

- **Base Layer:** The base layer helps regulate body temperature by wicking moisture away from the skin. Merino wool and synthetic fabrics are great for this. Avoid cotton as it will retain moisture and can leave you feeling cold and wet. This piece of clothing should be relatively snug, as you will often wear other layers over it.
- **Insulation Layer:** This layer will help you retain heat by trapping it close to your body. Fleece or wool jackets are the best fabrics for this.
- **Shell Layer: This is your most important piece of equipment.** The shell layer, or top layer, is meant to protect you from wind, rain or snow. This layer should be big enough to fit over both the base and insulation layers. A shell should be wind resistant, waterproof and insulated.

Brand Recommendations:

- Patagonia, Columbia and North Face have many options for clothing and bags. A Patagonia Nano Puff Jacket is a great lightweight option for an insulated jacket. All three brands make a variety of options for fleece jackets that vary in style and weight.
- Ozark Trail makes some fantastic hiking/camping equipment that is reasonably priced (look for mess kits, sleeping pads or sleeping bags)
- Columbia has a variety of thick soled, trail running shoes that are great for day hikes.
- Chacos or Tevas work well for camp shoes because they are waterproof and contain a back strap.
- Osprey makes a large variety of lightweight, daypack options.

Bags and Packs

- Duffel Bag (70-90 liter): travel with all of your gear in a duffel bag. This bag should be strong enough to withstand airline travel and big enough to hold all of your stuff. Be sure to check with your airline to determine size and weight restrictions.
- Backpack (25-35 liter): Camper will **NOT** have to carry all of their stuff on their backs. We will not be doing any long range over night backpacking trips in the backcountry. However, we will be doing long day hikes over glaciers and tundra. Campers will want to bring a medium size daypack to carry a lunch bag, change of clothes, rain gear, fresh socks, camera, two water bottles and other personal gear.

SHOES/SOCKS

<input type="checkbox"/> Camp Shoes	1	Any comfortable shoe with back strap and covers toes
<input type="checkbox"/> Day Hiker Shoes	1	Look for heavy duty/ trail running shoes. These will generally have a thicker sole and more support than a standard running shoe. You do not need full hiking boots (that cover the ankle) but you are welcome to bring them if you would like.
<input type="checkbox"/> Hiking Socks	8	Lightweight, yet warm, non-cotton socks. It is helpful to choose socks that come above the ankle, to prevent burrs and small rocks from entering the shoe
<input type="checkbox"/> Warm Socks	2	A thicker style of sock, usually wool, that can be worn around camp or when sleeping
