What is a Traditional Occupant?

A Traditional Occupant is a guest who has stayed in the same accommodation for at least two (2) years in a row. By the end of the second year, the guest has established themselves as the Traditional Occupant of that specific accommodation.

How do I keep my status as Traditional Occupant?

To keep your status as the Traditional Occupant of your specific accommodation(s), you must return to each Guest Period, year after year. TOs are allowed one (1) Skip Year every five (5) years. If a second Skip Year is taken in the same five year window, then the Traditional Occupant rights have been forfeited and another guest will be offered the opportunity.

First Right of Refusal

Traditional Occupants will always have a First Right of Refusal. You will be added to the email list that is sent before registrations officially open for your specific week of Guest Period which allows you to register early and lock in your accommodation before we open to the public.

Swapping or Moving Weeks

Swapping accommodations within the same Guest week or moving to another Guest week will both incur a Skip Year to your Traditional Occupant status as you must remain in the same accommodation year after year. Detailed records of each year are kept by the Reservations Department.
